LETTER OF DEFICIENCY# WSEB 02-125
Certified Mail#7099 3400 0003 0692 3003

Subject: Pelham - Public Water System: Pine Valley Golf Links (EPA #1857050)

Dear Mr. Madden:

The records of the NH Department of Environmental Services (DES) show that the Pine Valley Golf Links water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample within the assigned sampling quarter requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample result for the following monitoring period (calendar quarter).

Quarter 2 – 2002
Nitrate

(DES acknowledges receipt of Quarter 3 - 2002 nitrate sample results.

DES believes the monitoring/reporting deficiency can be addressed by taking the following actions:

1. **By October 4, 2002**, submit the Quarter 2- 2002 nitrate sample as a "make-up sample" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the sample to your laboratory.
2. **By October 4, 2002**, provide public notice of the failure to submit the Quarter 2– 2002 nitrate sample, as specified on the enclosed form; and
3. **By October 18, 2002**, provide proof of public notice to DES, as specified on the enclosed form.
